

Networking for a living.

*In a world that never lets up,
your network is your lifeline.*

That's why you need N.E.T. — a proven networking specialist with the ingenuity and fresh thinking to keep you at the forefront of this complex industry.

As a carrier, you face relentless competition, plus increasing pressure from customers. Everybody demands more bandwidth, higher functionality, greater connectivity, and nonstop availability — at the lowest possible cost.

To help you deliver leading-edge services, we offer a growing suite of breakthrough products: High performance ATM and frame relay switches. Revolutionary voice-compression modules. Flexible integrated-access platforms. Streamlined network management systems. Scalable end-to-end solutions — supported by proactive professional services.

At N.E.T., our goal is to help keep applications up, costs down, and customers satisfied. Count on us to move in new directions and keep you well-provisioned to lead the networking life.

We'll Take You There
